## Field System Machining Awarded Portable Lathe Compound Project By ReGENCo Toshiba

*Field System Machining's Portable Lathe Compound Design has Once Again been Deemed the Best Value and Performance by ReGENCo Toshiba.*

For Immediate Release

CHICAGO/EWORLDWIRE/Feb. 16, 2011 --- "We're delighted to continue our status as a trusted portable machine tool manufacturer to such a prominent turbine OEM as Toshiba ReGENCo," said Tony Piwowarczyk, Field System Machining's business development director. "We value the relationships we've developed with ReGENCo over the past few decades and have been delighted to continue that tradition of service with ReGENCo and Toshiba International Corporation."

"We manufactured the first portable lathe compound for ReGENCo Toshiba in 2008, and this second order, based on the success of the first unit, is for the exact same model," said Piwowarczyk.

### About Field System Machining

Field System Machining has designed and manufactured portable field machining equipment, as well as turnkey field machining, portable machining, turbine overhauls and machinery repair solutions, since 1978. Field System Machining serves the power generation, steel manufacturing, pulp, paper, chemical, petrochemical, pharma, food, steel, aluminum, plastic, forging, general industrial manufacturing, defense, and press industries, on four continents over the past five decades.
