

## Field System Machining Adds Territory Manager For Northwest U.S.

*Valued Clients in Region Have Dedicated Local Service*

For Immediate Release

CHICAGO/EWORLDWIRE/June 15, 2010 --- Field System Machining (FSM) (<http://www.fieldsystems.com>), the field machining, turbine overhaul and mill machinery repair pioneer, welcomes Don Aarts as factory representative and manager of the Northwest Territory. Aarts will be calling on customers located within the states of Washington and Oregon. His responsibilities include representation of FSM repair and restoration capabilities for turbine overhaul, steam path repair and field machining projects at power plants, paper and pulp mills, steel mills, extrusion plants, ship yards and other heavy manufacturing facilities.

"We are delighted with the addition of Don to our team," said Tony Piwowarczyk, Field System Machining's business development director. "We value the relationships we have developed with our Northwest Region customers over the past 32 years. Don enables us to provide a personal, local level of customer service excellence."

Aarts brings to Field System Machining over 25 years of territory management expertise including previous experience representing industrial engineering and automated equipment manufacturing. He holds an Associate in Arts degree from Riverside City College and a Bachelor of Arts degree from Cal State University - Sacramento. A long time resident of the Seattle area, Aarts works out of his office in Bellevue, Wash.

About Field System Machining (<http://www.fieldsystems.com>)
